METAL SCAFFOLDING

SUPPORTING YOUR CONSTRUCTION
NEEDS SAFELY & EFFICIENTLY

Sthiratāyai Nirmāṇam

ABOUT US

Established in 2009, RCFM is a leading fabrication company dedicated to delivering precision, quality, and innovation in every project. With years of expertise, we provide customized fabrication solutions that meet the highest industry standards. Our skilled team ensures on-time delivery, exceptional workmanship, and complete client satisfaction across industrial, commercial, and custom requirements.

METAL SCAFFOLDING

Our metal scaffolding solutions are engineered for strength, ease of installation, and safety. Suitable for all types of construction and maintenance work, we provide modular scaffolding systems that ensure stability and compliance with safety norms.

EXTERNAL LIFT FABRICATION

We design and fabricate secure and robust external lift shafts and support structures using high-grade steel, ensuring smooth integration with existing buildings while adhering to all safety standards and load requirements.

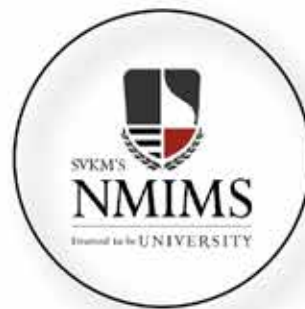

SAFETY BARRICADES

We provide durable, high-visibility safety barricades designed to ensure maximum protection at construction sites, roadworks, and public areas. Built with robust materials and precision engineering, our barricades offer reliable separation of work zones, guiding traffic and safeguarding pedestrians. Easy to install, relocate, and maintain, RCFM Safety Barricades combine safety, functionality, and long-lasting performance to meet the highest industry standards.
